

SaaS Customer Onboarding Plan

Portfolio simulation · Customer Success

Portfolio status

Fictional scenario created to demonstrate my Customer Success approach; not presented as client work.

Scenario

A 50-user company has purchased a workflow-management SaaS platform and wants teams actively using priority workflows within the first month.

30-day approach

Discover goals and stakeholders; configure the workspace; deliver role-based training; monitor adoption and blockers; conduct a first value review.

Success checkpoints

- Customer goals and success criteria agreed
- Priority workflows configured
- Users trained and using core workflows
- Blockers documented and resolved
- Next-phase plan agreed
